

Zoho Backup Tool

(Software guide)

Overview

The Zoho Mail Backup Tool is a powerful and easy-to-use solution to backup Zoho Mail data. It saves emails to multiple file formats and email clients, including PST, PDF, MBOX, Gmail, Office 365, Thunderbird, Yahoo Mail, etc. With its intuitive interface and advanced features like selective backup and duplicate email removal, it's perfect for both technical and non-technical users. Compatible with all versions of Windows like Windows 11, 10, 8.1, 8, 7, etc.

What's New in this Version?

- Improved speed for quicker email backup and migration.
- Now supports additional file formats for enhanced flexibility.
- Improved User Interface.

Key Features

- Supports backup of Zoho emails to various formats like PST, EML, PDF, MBOX, and more.
- Allows selective email backup based on custom date ranges.
- Migrates Zoho emails to popular email clients like Office 365, Gmail, and iCloud.
- Provides the option to preview mailbox folders before initiating the backup.
- Removes duplicate emails during the backup process for cleaner data.
- Offers a feature to free up server space by deleting emails after the backup is complete.
- Features an easy-to-use interface suitable for both technical and non-technical users.
- Fully compatible with both Mac and Windows operating systems.

Minimum System Requirements

- Hard Disk: 500 MB of free hard disk space required
- **RAM:** 4 GB of RAM (4 GB is recommended)
- **Processor:** Intel® Core[™] 2 Duo CPU E4600 @ 2.40GHz 2.39GHz

Installation Process of Aryson Software

Follow the steps to install the Aryson Technologies software on your system:

• Firstly, Visit the official website of **Aryson Technologies.**

(https://www.arysontechnologies.com)

• After that Click on the **Product Section** of the Website and choose the software you

need to download from the navigation list.

• After that, You will find a product description page of your selected software. From the

description page, tap on the **Download Now** button.

• After downloading, **double-click** on the downloaded .exe of the tool. Or visit the download

location from your computer and **run** the software as an **Administrator**.

• Click the **Next** button to continue the installation setup of the software.
